

Gunnebo H-Sense G Sanitizer Gel Kit

Automatic hand sanitizer gel dispenser with stainless steel pole-mount and glass barrier

GUNNEBO[®]

Technical Specifications

Physical Dimensions

Primary Functions

- Sensor-activated and touch free
- Hygienically delivers sanitizer gels and disinfectant
- Eliminates cross-contamination and increases compliance
- Ready-to-use cartridge shortens refill time
- Capacity of 40.6 oz
- Simple installation
- Tamper-proof lock and key

Specifications

Color	White
Power Source	4 x C-cell Batteries (included)
Dimensions	6.0" (W) x 3.9" (D) x 11.4" (H)
Installation	Pole-mounted on stainless steel pedestal with glass barrier
Materials	Polypropylene, ABS
Capacity	40.6 oz
Consumables	Gel / Liquid / Foam

H-Sense Infection Control Features

H-Sense is a family of access control solutions specifically designed to provide contactless and automated infection prevention and control functionalities, providing your building and its occupants with protection from the point of entry.

H-Sense G - Sanitizer Gel Dispenser

H-Sense G features an automatic sanitizer gel dispenser linked to the turnstile functions of the gate, with mounting pole and glass barrier, that will administer a dose of hand sanitizer contactlessly and will not allow entry unless sanitizer has been administered.

It is well documented that practising good hand hygiene is a critical factor in preventing the spread of infection, by minimizing the opportunity for infectious agents and pathogens to be deposited on hard surfaces like doors and windows, particularly in communal areas.
