

Protecting your Investment with our TRUE BLUE Service and Maintenance Program

Our Commitment – Your Piece of Mind

We recognize that Gunnebo installations are a critical part of your overall security infrastructure. As such, we are pleased to offer our **TRUE BLUE** Service and Maintenance Program which enhances reactive response times and provides Turnkey peace of mind – **that's our commitment.**

Our own dedicated service and maintenance experts work with you to ensure minimum product downtime and provide the highest quality service.

TRUE BLUE includes:

- (2) Preventative Maintenance visits by Gunnebo Certified Technician per year
 - You will receive a Full Report outlining the health of your lanes
- Full onsite service coverage by Gunnebo Certified Technician during normal business hours
 - Same-day Call back response time and service ticket creation
 - Priority Onsite Response Time
- Full parts coverage
- Program Billed annually

Benefits of Planned Maintenance

A turnstile or security door is an electro-mechanical device which benefits from regular servicing to:

- Prolong the longevity of the lanes
- Maximise the effectiveness of your equipment
- Ensure reliability of your lanes
- Reassure you that all safety systems are fully functioning

We therefore recommend you opt for the TRUE BLUE Service and Maintenance Program for the Turnkey peace of mind it provides.

Around 90 million people pass through Gunnebo entrance control gates daily
